VIO

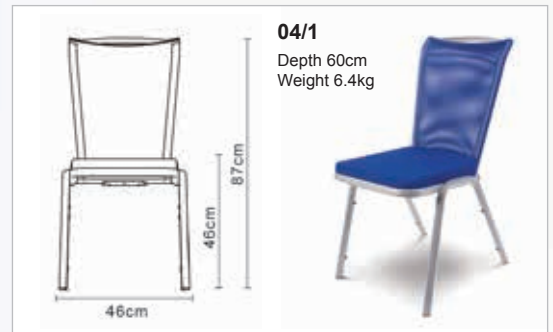

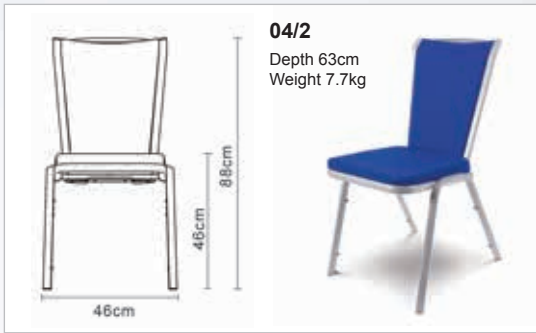

“A contemporary design that combines strength with elegance”

Designed by Peter Roth, Vio is a range of multipurpose stacking chairs for use across banqueting, conference and meeting rooms.

The design elements that combine to create this contemporary collection include our unique triangular aluminium tube, which achieves remarkable strength & durability, a deceptively slim sprung seat, flexing back, and a contoured top rail for ease of handling.

With the option of a mesh-back or a fully upholstered version, Allday™ comfort is assured.

Option - Retractable linking

Accessory - Detachable tablet

The chair can be stacked 12 high
(visit our website to see our specially
designed stacking trolley)

Made in Britain

We are proud to say that for over half a century we have made all our chairs and tables to exacting standards in our West London factory.

Environmental Policy

As a leading industrial enterprise, we recognise our responsibility to the environment and are committed to achieving best environmental practice.

To this end we actively ensure that the environmental impact all of our materials, processes and products is reduced as much as possible or eliminated. The company is certified to ISO 14001 as well as having membership to 'Club Green', the highly acclaimed initiative run by FIRA.
